## Experience & Projects

**Deeporion Technology Pvt Ltd**  
software Developer

02/2024-present

- Proficient in creating pages and implementing responsive designs using React Native.
- Skilled in conducting UI testing for both web and mobile applications, adept at identifying and fixing UI bugs.
- Experienced in troubleshooting and resolving issues in web applications.
- Demonstrated ability to assign and oversee bug-fixing tasks for team members.
- Strong background in ensuring cross-platform compatibility and usability.

**Artificial Mind & Intelligence Technology Pvt. Ltd.**  
Frontend Developer, React.js, Next.js, React Native Dev

2021-09-01 - 12/2023

- TryDyota <https://tridyota.com>  
E-commerce website (09/2023-12/2023)

Led front-end modifications for Tridyota, an electrical e-commerce platform, overseeing features like registration, login, password management, and admin site. Maintained and implemented features across the project using React.js(admin), Vite.js, Next.js(User side), React Native (iOS and Android), JavaScript, Tailwind CSS, Redux, Context API, React Hooks, HTML5, ECMAScript, [Socket.io](#), [ImageKit.io](#), Axios, and push notification.

- HomeScouts <https://homescouts.in/>  
E-commerce website (08/2022- 09/2023)

Led e-commerce platform's front-end development, crafting features like Admin Control Panel and chat from scratch. Integrated RESTful APIs for data retrieval. Employed React.js, Redux, Context API, JavaScript, HTML5, CSS3, [Socket.io](#), Bootstrap, imageKit, Axios, real-time Chat, and push Notification.

- Tunnel Management System (TMS)  
Tunnel Traffic Control for Kempegowda Bangalore Airport(09/2021-08/2022)  
Led by a team of developers, we created a traffic control system featuring real-time accident alerts by integrating APIs for data retrieval and control. I spearheaded front-end integration efforts using a tech stack comprising React.js, JavaScript, React Hooks, Context API, HTML5, CSS3, [Socket.io](#), imageKit, Material UI, Visual Dashboard, and Realtime push Notifications.

## Personal Project

### Education App

🔗 <https://github.com/Ramrup-mahato/Education.git>

- Developed a React Native app from scratch to efficiently manage student performance and school/college activities, including a dashboard, assignments, homework, and fee payments.

### Bidding App

🔗 <https://github.com/Ramrup-mahato/BidForPhoto.git>

- Developed a React Native app from scratch to bid on photo prices and search for the best photo choices
