EDUCATION

AMC
Engineering
College
B.E, Electrical &
Electronic (EEE)

Front end developer with 1+ years of experience in IT industry, looking for an opportunity where I can apply my technical skills, improve, upgrade them by learning new and emerging technologies and deliver value. Excellent problem-solving skills and attention to detail. Strong communication and collaboration abilities.

WORK EXPERIENCE

**Codermaniaa labs pvt ltd –
Frontend Developer** (September 01, 2021 - Present)

- Worked as a front-end developer and was involved in the analysis of requirements, design, development, integration, and testing.
- Identified web-based user interactions and developed highly-responsive user interface components via React concepts
- **Build a responsive** web application for all devices support (mobile, tablet, laptop, desktop).
- Made and used reusable components while developing web applications.
- Maintained high-level expertise in **React state** and **Hooks management** strategy

PROJECTS

**HomeScout
E-commerce website** (February 01, 2022 - Present)

- An **e-commerce** website for selling, buying, and renting (rooms, apartments, houses) and service Providers.
- Leading the frontend infrastructure including the router, homepage, reusable components, conformance etc
- Implemented the features from scratch and worked till the completion of the project.
- Developed various features across the website. Admin Control panel, anonymous chat, personal chat, upload story and view Story.
- Integrated several APIs to retrieve and process data.
- Working as a frontend engineer with homeScouts team, integration. Tech Stack: **React.js(ES6+) / HTML5/CSS3/Socket.io/ Bootstrap/imageKit/ContextApi/axios/ Webpack etc.**.

**Tunnel Management System (TMS)
Tunnel Traffic Control for Kempegowda
Bangalore Airport** (October 01, 2021 - January 01, 2022)

- TMS is a **traffic control system** in the tunnel. The system alerts us when an accident occurs, closes the tunnel, and provides full control online.
- Integrated **several APIs** to retrieve and process data.
- Develop and implemented the features from scratch and worked till the completion of the project.
- Get **real-time data** through socket.io

  Working as a frontend engineer with the TMS team, integration. Tech Stack: **React.js(ES6+)/HTML5/CSS3/Socket.io/imageKit/axios/ Material UI**
